

A business without IP protection is like driving without your seatbelt on. You're unnecessarily taking an easily avoidable risk.

Business of Intellectual Property Asia Forum 2018

Once again, the Intellectual Property Business Asian Forum (BIP) was co-organized by the Hong Kong Special Administrative Region Government together with the Hong Kong Trade Development Council (TDC) and the Hong Kong Design Centre (HKDC). This year, the BIP Forum was held on 6-7 December 2018. It brought IP professionals and business leaders from around the world to discuss the latest developments in the IP world, and to explore business collaboration opportunities.

Suzzess and its predecessor company had participated in 5 out of the 8 forums, since 2011 – maintaining a high-profile booth to provide Free IP Consultation to visitors at the Forum and for meeting various business leaders and Intellectual Property owners from Hong Kong, the People's Republic of China and visitors from other countries.

This year, the theme of the Forum "IP and

Innovation in the New Socio-technological Landscape" attracted over 2,500 local and overseas visitors, which shows that Hong Kong is an important regional IP trading hub.

The Chairman of the Review of the Patent System's Advisory Committee, who co-founded the BIP Forum delivered a speech and explained that "the development of the "Belt and Road" and the Greater Bay Area of Guangdong, Hong Kong and Macao depend on technological innovations, which involve many intellectual property industry issues. "Belt and Road" brings both new challenges and opportunities for parties of Greater Bay Area where "one country two systems" are applied".

During the 2 days, Suzcess provided consultations to over 60 visitors and developed multiple business specialist IP contacts from Myanmar, Europe, Philippines, Qatar, Mauritius, Indonesia and Thailand.

According to Managing Director Yosh Wong, "the annual participation allows Suzcess to reach out to global partners and associates in the Legal, IP and Consulting industries, not only to develop business synergy but also to understand the problems with investigations and enforcement in each country".
